Live French teachers!

Parent involvement leads to student success

Parent engagement matters. Study after study has shown us that student achievement improves when parents play an active role in their children's education, and that good schools become even better schools when parents are involved....

Students are more likely to be motivated, to earn higher grades, to have better behaviour and social skills, and to continue their education to a higher level when their parents are actively engaged in supporting their success at school.

Ministry of Education, "Parent Engagement"
